## A Different Fastener Distributor

At Infinity Fasteners we endeavor to go beyond the basic definition of a distributor - we don't want just to supply a product. Our goal is to find solutions for our customer's in inventory management, vendor reduction, cost reduction & overall supply chain efficiency.

## Problem → → Solution

Every company is unique - challenges one faces can be different from another - so we take the approach of focusing on customizing solutions based on your company's actual needs. By taking the time to listen & identify areas to make improvements, our customers are free to focus on what they do best.

*A Keller & Kalmbach Company*

*Infinity Fasteners service has been quite impressive. They have implemented two bin systems at both of our plants to streamline the vendor managed system they administrated. They are an organization that you can trust to effectively and efficiently handle the details of your fastener spend.*

### **Jeff Richards**

Strategic Sourcing Manager  
**CRANE Pumps & Systems**

*I highly recommend Infinity Fasteners. After 16+ years of working with them, we are all quite impressed with the service and quality we continue to receive. The hardware we purchase is for projects and needs to be packaged and marked per each Bill of Material item. Infinity Fasteners makes sure everything is properly marked and packaged. These are the little things, but they make my job easier.*
